

**WW1 RFC/RAF OMEGA PILOTS 30 HOUR NON LUMINOUS MARK V COCKPIT  
WATCH**

**WW1 RFC/RAF OMEGA PILOTS 30 HOUR NON LUMINOUS MARK V COCKPIT  
WATCH**

Dial is marked "B.B 3121, 30 Hour, Non-Luminous, Mark V". There is a small chip to the dial at 11.45. The casing is in good condition with War department stamp to reserve. Both outer case and movement cover stamped 5935766. Hinged movement cover stamped "Omega". Omega signed movement and stamped 5083222. Movement itself is very clean and watch winds perfectly and keeps good time for the time observed (over 24 hours). The glass is undamaged but does have some wear, much of which could probably be removed with a little baking soda paste and some patience.

This is an original piece that has not been converted to a pocket watch with a loop, which is how these watches are usually found. All in all, a nice piece
